WHEN you seek to avoid the ments back to elastic turf. But you can change your heels. your feet have learned to dread. When you turn instinctively to a few small patches of turf left in our cities today.

-This sign bars your way. It denies you the relief you need-the relief from all the jolts and jars that make walking for you a serious cause of fatigue and exhaustion.

Only a few years ago we walked on soft dirt paths and elastic turf, which cushioned every step. But today, on leather heels or ordinary "dead" rubber heels, every step acts as a hammer blow to the delicate nervous system. The average man takes 8,000 steps a day-suffers 8,000 shocks. Here is one of the greatest causes of fatigue today.

You cannot change the pave-

O'Sullivan's Heels eliminate the fatigue caused by pounding hard leather heels or ordinary rubber heels on hard pavements.

To secure the resiliency, the springiness of O'Sullivan's Heels, the highest grades of rubber are blended by special formula. With this blend of live, springy rubber are "compounded" the best toughening agents known. The 'compound" is then "cured" or baked under high pressure.

This is why O'Sullivan's Heels absorb the jolts and jars of
